**Rocky Mountain Security Group (RMSG)** is a Colorado based security system integration company. **RMSG** was established in 2006 and offers a wide variety of security, surveillance and Locksmith services. **RMSG** has teamed up with Central Security Communication to provide excellent service to its commercial and residential customer base. **RMSG** is bonded & insured and uses Honeywell Certified Alarm Installers.

**Central Security Communication, Inc. (CSCI)** has been monitoring electronic equipment since 1963. Our company was one of the first fully automated Central Stations in the Western United States. **CSCI** has kept up with the current technology and since 1989 **CSCI** has maintained a **U.L. listed** status for protective signaling services and a Class 1 Fire License.

**CSCI** has been family owned and operated since 1973 and has had a steady growth rate since its inception. Our operators are licensed, fingerprinted, and have a thorough background check to ensure the security of your system. The operators then participate in an extensive in-house training program resulting in efficient handling of your signals.

**CSCI** believes strongly in redundant equipment in order to receive your alarm signals accurately. This involves backup computer systems, backup receivers, backup batteries, a backup power generator, and a multitude of spare equipment that can be installed when needed. Our automation software is produced by **Monitoring Automation Systems (MAS)**. **MAS** is the premier automation software in the industry and has a technical staff 24 hours - 365 days a year.

**CSCI** has a mission is to monitor your alarm. **CSCI** does not sell, install, or service alarm systems. **CSCI** is committed to monitoring your system in a professional manner through a close association with your alarm installer; **RMSG**. Be assured that, regardless of the type of alarm transmitted to us we will handle it with speed, accuracy, and professionalism.
